Dear: Prime Minister Simpson-Miller,

I am a baptized member of the Church of Haile Selassie the First and I think that Abuna Foxe should be put into parliament. He has accomplished many things for the sake of righteousness and for all looking for salvation through God Tafari, Negus Rastafari, Haile Selassie the First. He has helped save many lives and is continuing to save many more, through the education of what it entails to be a true Rastafarian.

I am one of many, who can speak from experience. There was a time in my life where I was in a dark place, confused, not knowing which way life was taking me. But through the loyal servant of God, Abuna Emmanuel Foxe, I was able to be saved and for this I will forever be grateful. I now understand my reason to live thanks to God appointing the Abuna as a righteous leader over Rastafarian people.

He is a man who the people of Jamaica would benefit from more by him being in Parliament. He is impartial and he follows the law that governs all. There are many people's lives that need to be saved and with him in Parliament Jamaica will accomplish much more and righteousness will prevail.
